Attribution

Decisions (How will they be made? Majority, consensus, other?)

Decisions will be made through collaborative conversation which will result in the agreed consensus of the idea

Attendance (What are your expectations for the frequency and type of attendance?; What are legitimate reasons for missing? What do missing members have to do to make up for missed meetings)

Our expectations for attendance is that we will both attend every class. If one of us misses a class it should only be due to a legitimate reason like an extreme sickness or a family issue. To make up for missed meetings the group member that attended should go over all missed material with the group.

Assignments (How will assignments be made? How will the group deal with members who do not complete (or poorly complete assignments?)

Both partners have agreed to hold the personal responsibility to not just make sure the other partner is staying up to date on assignments and class participation but also being able to pull their own weight

Participation (How will you communicate and share information; How will you ensure full participation of everyone? How will you honor member strengths and interests)?

To communicate and share information we will collaborate in class, and we will frequently meet up on either a video call or in person, this will also ensure full participation of both of us because we won't be able to slack off if we are always on the same page. To honor our strengths and interests we will have a long discussion about the possible things we could choose to do our final project on.

Meeting Times and Locations/Mediums (How will you decide on locations and times that suit all members)?

After communication explaining how much free time each partner has throughout the week and which times are going to work for both, we will determine the best times to either meet up through a zoom call or in person to work on the final project

Agenda and Minutes /Notes (Who will take them how will they be shared?)

We will discuss agenda, minutes, and notes prior to the meeting, and we will equally split up the responsibilities.

Promptness (What do you expect and how will you handle lateness?)

If one partner is late to a meeting, the meeting will either be rescheduled or postponed. If a zoom meeting is unavailable after the missed meeting, there will be the opportunity to just work on what each partner can alone

Conversational Courtesies (How will the team encourage and reinforce active listening, sharing of the airtime, tangents, respectful dialogue, etc)

If we get into some sort of conflict we will just talk it out and be respectful about it

Enforcement/ Feedback (How will the team enforce its own rules? How do individuals prefer to give and receive feedback?)

To enforce group rules, each partner will hold the other accountable for their actions and responsibilities. Positive feedback will always be used to avoid any negative connotations
